Wound Care & Pressure Injury Management

Core Nursing Essentials Wound Care & Pressure Injury Management

Study wound cause, assessment, healing and prevention together. Detailed staging instruments, dressing protocols and protected assessment tools require separate review.

For educational purposes only.

Study guide

Study wound cause, assessment, healing and prevention together. Detailed staging instruments, dressing protocols and protected assessment tools require separate review.

How to revise this category

1. Choose a topic and explain its purpose.
2. Identify the observations, equipment or information needed.
3. Connect the findings to documentation, reassessment and escalation.
4. Practise under qualified supervision and review the current local protocol.

Curriculum coverage

- Types of wounds
- Stages of wound healing
- Factors affecting wound healing
- Wound assessment
- Types of wound dressings
- Surgical wound care
- Pressure injury classification
- Braden Scale
- Pressure injury prevention
- Surgical drain care
- Diabetic foot care
- Signs of wound infection

Quick Revision

Use this curriculum guide to organize study. Published summaries are listed separately. Detailed drafts remain in the private content studio until source and clinical checks are recorded.
